PROFESSIONAL SUMMARY

B.Sc. Information Technology graduate with a strong foundation in software development, databases, data analysis, Networking and information technology concepts. Hands-on and detail-oriented individual with a strong willingness to learn, adapt, and take on new technical challenges. Skilled in working with Microsoft Office, SQL, basic programming, data handling, troubleshooting, and analytical problem-solving, with an interest in developing practical IT solutions. Eager to apply academic knowledge in a professional environment, gain hands-on industry experience, and contribute to organizational goals through technical skills, teamwork, and a strong work ethic.

EDUCATION

CENTRAL GLOBAL UNIVERSITY – GEORGIA. UAE
BSc in Information Technology 2022-2025

BITS BIRLA INSTITUTE OF TECHNOLOGY, UAE
Diploma in Computer Science 2018-2021

Sales Performance Dashboard

- Created an interactive sales dashboard using Microsoft Excel to analyze sales trends, product performance, monthly revenue, and key performance indicators.
- Cleaned and organized raw sales data using Excel functions, filters, sorting, and PivotTables.
- Prepared charts and summary reports to present business insights in a simple and understandable format.

Inventory Management Tracker

- Developed an Excel-based inventory tracking system to monitor product stock levels, stock movement, reorder requirements, and inventory status.
- Used formulas, conditional formatting, data validation, and PivotTables to organize and analyze inventory data.
- Designed the tracker to make stock monitoring easier and help identify low-stock items.

Student Database Management System

- Created a simple database project to manage student information such as student ID, name, course, contact details, and academic records.
- Used basic SQL concepts to create tables, insert records, update information, and retrieve data using queries.
- Practiced database organization, data accuracy, and structured information management.

Ryzume AI – AI Career Toolkit Solo Founder

- Built and launched Ryzume AI, an AI-powered career toolkit (resume builder + ATS scanner).
- Gather product requirements directly from users through interviews, feedback, and support tickets.
- Analyze user feedback and product data in Excel to prioritize features and resolve issues.
- Handle customer onboarding, documentation, and issue resolution end to end.
